## MANUAL CONTAINER SEALING MACHINE

Rotational Filling & Sealing Machine

Manual Sealing Machine

Manual Sealing Machine

Rotational Sealing Machine

1) The temperature controller is to be set in the beginning.
2) To set the temperature controller press the set button first. Then press increase ▲ or decrease ▼ button to the required temperature, then press set button again. The machine is now set. This setting will remain as it is for all time.
In analog temperature controller turn or set the knob to the required temperature.
3)The temperature controller will switch on / off at the set temperature of the heater/sealing dish.
4) Now place the filled cup / bottles in the cup / bottles holder.
5) Place a lid on the cup / bottles.
6) Shift the holder under the heater.
7) Press machine handle for about 2 second until the 4 small springs compress for few millimeter.
The cup / bottles is now sealed.
8) Then bring back the cup / bottles holder and remove the sealed cup bottles.

IDEAL TO SEAL ALL PLASTIC BOTTLES, PAPER CUPS, PLASTIC CUPS
